NEW HAMPSHIRE WILSON'S

Leads New England State by 63 Votes.-Gains in California with 17 Precincts Missing.—Hughes Drops in Minnesota, but Still Maintains Safe Lead .- Wilson is a majority President.

New York .- On the returns up to date President Wilson has received 8,508,085 votes and Mr. Hughes 8,090,-951. Mr. Wilson's popular plurality is therefore 417,134. He is a majority president, which he was not when he went into office. In 1912 he received

It has been said that Mr. Hughes received the votes of the most populous states of the Union and Mr. Wilson that of the less populou. There is not so mucch difference as might be expected. The states which voted for Mr. Hughes had, according to the last census, 45,901,739 inhabitants. Those which voted for Mr. Wilson had 45,-737,643. The difference in Mr. Hughes' favor is 164,096.

The latest returns from the close states show the following results: In California Wilson is leading by 3,431 votes, with a few scattering precincts missing; in Minnesota, where

some of the militiamen's votes have been counted Hughes is still abeau by 286 votes with 27 districts missing: in North Dakota, with 14 districts missing. Wilson leads by 963 votes: New Hampshire, where the count has been completed, gives Wilson a plurality of

From the reports of leading correspondents in the different states on the influences which brought about Mr. Wilson's election it is possible to get a clear idea of the part played by the different group "votes" of which so much was said before election, and of the reasons which moved great bodies of voters to the decision they reached.

Progressives and the Women. Two classes of voters, and two only, accomplished the result. They were not the Gerrman-Americans, the labor vote, or any of the groups standing for special interests. They were the Progressives and the women.

The split made in the Republican party in 1910, which became a break in 1912, was not mended at Chicago. The dispatches now in the hands of the papers indicate no probability of its being mended until the cause for it is taken away. From the Hudson River to the Mississippi, the bolters of 1912 were largely satisfied with Hughes, but to the East and West of those boundaries, especially to the West, they were not. And it was the West that decided the election.

In New York and Illinois the breach was apparently healed; there is no sign of anything to the contrary, and the same thing seems true of the states that generally follow the leadership of these two. That, however, was as far as Colonel Roosevelt was

able to bring about a reunion. The Progressives of Kansas, Washington, California and the other Western States have again defeated a Recause the other wing of the party was in control and made the nomination. Minnesota and Wisconsin voted for Hughes, but both have show that they are as progressive as ever, Minnesota by accepting him so narrowly and

Wisconsin by LaFollette's victory. The woman vote and the Progressive vote telescope each other, for in the critical states the women who turned the election were largely Progressives. But the women voted as women, too. The reports from the states where women vote show that the dream of solidifying woman as a sex and swinging her vote this way and that at the order of female politi. Pennsylvania cal leaders is shattered forever. But Rhode Island the women did make up their minds South Carolina 9 as women in many Western tSates. South Dakota and voted without regard either to Tennessee 12 how the women politicians bade them Texas 20 or to how their own men folks voted | Utah 4

Washington.-President Wilson was back at his desk in the White House, after an absence of 2 months, prepared to take up important foreign problems which have been held in abeyance pending the election as well as domestic questions. These included the German submarine question, the Mexican problem and a number of Federal appointments.

A summary of recent developments in German submarine warfare, prepared by the state department, was ready to be laid before him and, in addition, he prrobably soon will confer again with Ambassador Gerard on the situation.

The President asked first for the latest information on the political make-up of the House of Representatives in the sixty-fifth Congress. He was told indications from present returns were that the Republicans would have 217 members and the Democrats 212 with six members of other
